Have you heard?

50/50 cost sharing for training Continues!

The Skills Development Initiative (SDI) has been extended and will continue to fund human resources development for the food processing industry in Alberta. Lack of proper training places pressure on the economic growth and vitality of the food processing sector. This makes it difficult to attract and retain workers. **SDI** provides funding for a wide range of training projects, programs and services to enhance the skill of food processing workers. Projects can range from \$10,000 to \$100,000..

It will improve your bottom line by increasing production, and it will also boost employee morale and improve communication.
